

## **Income-Based Program (IBP)**

Growing Minds Christian Academy's Income Based Program was designed to create an equal opportunity for all students, regardless of financial limitations. We share a strong community belief that investing in the future of our youth will positively impact their future and ultimately the world in which we live.

Growing Minds Christian Academy is committed to welcoming all qualified students regardless of ability to pay full tuition. To make tuition more accessible and affordable, the fees are scaled so that families tuition is based on combined household income, opening the door to all qualifying families.

**If you would like to see if you qualify, please call the office to schedule an appointment.**
